BENNY TEMMERMAN

SecOps engineer with 3+ years of experience in high-compliance environments. Focused on automation, documentation, and maturing SIEM platforms (Splunk & MS Sentinel).

PROFESSIONAL EXPERIENCE

Orange Cyberdefense — SIEM Specialist
Sep 2022 – Present | Brussels
Optimized a python-based API integration for cloud-native log source, restoring 100% data visibility to fix a ingestion delay creep.
Standardized Technical guide, used in Global Ops, to reduce investigation start time from 20-30 min to < 5 min.
Tuned custom detection logic in KQL suppressing expected behavior and reducing false positives.

Orbid — System Engineer
May 2019 – Aug 2022 | Merelbeke
Provided infrastructure support and administration (Linux/Windows/virtualization) for SMEs.

ICT Talents (Next-ICT) — IT Consultant
May 2019 – Jul 2020 | Belgium
IT support in Microsoft environments.

PROJECTS

Portfolio Website: Built siemforge.xyz to showcase projects.

Security Stack: Self-hosted SSO system and Reverse proxy system.

Ongoing project (Orchestration)**:** Designing a full-stack automation pipeline using OpenTofu for Proxmox VM provisioning and Ansible/AWX for host configuration.
