BENNY TEMMERMAN

SecOps engineer with 3+ years of experience in high-compliance environments. Focused on automation, documentation, and maturing SIEM platforms (Splunk & MS Sentinel). Passionate about moving SOC environments toward a proactive, automated 'Infrastructure-as-Code' model.

PROFESSIONAL EXPERIENCE

Orange Cyberdefense — SIEM Specialist

Sep 2022 – Present | Brussels

Optimized a python-based API integration for cloud-native log source, restoring 100% data visibility to fix a ingestion delay creep.

Standardized Technical reference guide, used in Global Ops, to reduce investigation start time from 20-30 min to < 5 min.

Tuned custom detection logic in KQL suppressing benign expected behavior and significantly reducing false positives.

Orbid — System Engineer

May 2019 – Aug 2022 | Merelbeke

Provided infrastructure support and administration (Linux/Windows/virtualization) for SMEs.

ICT Talents (Next-ICT) — IT Consultant

May 2019 – Jul 2020 | Belgium

IT support in Microsoft environments while achieving certifications in Linux and virtualization.

PROJECTS

Portfolio Website: Built siemforge.xyz to showcase projects.

Security Stack: Implemented a self-hosted ecosystem featuring Authentik SSO and Nginx Proxy Manager.

Ongoing project (Orchestration)**:** Designing a full-stack automation pipeline using OpenTofu for Proxmox VM provisioning and Ansible/AWX for agent configuration.

Next step (Resilience Testing)**:** Used the lab to prototype automated recovery workflows, ensuring SIEM agents are redeployed instantly following a system failure.
